EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Joseph Contrera on January 20, 2006.

The application has been amended as follows:

2. (Currently Amended) A process for generating chlorous acid which comprises contacting a chlorite salt solution with a cation exchange material in the hydrogen form in a moist environment for a time sufficient to effect an essentially complete substitution of the cations in the chlorite salt with the hydrogen ions on the cation exchange material to form chlorous acid.

4. (Currently Amended) A process for generating chlorous acid which comprises contacting a chlorate salt solution with a cation exchange material in the hydrogen form in a moist environment for a time sufficient to effect an essentially complete substitution of the cations in the chlorate salt with the hydrogen ions on the cation exchange material to form chlorous acid.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
